

## A PEBBLE MAKES AN IMPACT

In spite of appearances, there is no failure with God. Things may look all bent out of shape, but God is silently working away. Goliath was NINE FEET tall, but a pebble out of the creek gave David the victory.

We may appear to be spinning our wheels on a muddy road uphill, but God's angel may soon turn up with a new RAM pick-up with a turbo diesel and a hefty tow rope. "Never say never," is worth repeating. When we reach the end of our resources, God is just beginning. Our extremity is His opportunity. Remember the boxer in the ring who was knocked down? "I'm down," he said, "but I'm not out." But only too soon a well-placed punch to the jaw sent him crashing again to the canvas, where the referee pronounced him, "Out!" The battered man said, "I may be out, but I'm looking up."

You and I on occasions may be down, but we are not out. And even if the referee pronounces us, "Out!" we're still looking up. The good news is that it is not the outlook that counts, but the **UP LOOK**. And the up look is what is important because that's where God is.

A pebble is just a small thing, But God uses small things, like people with less notable talents. He loves, said Isaiah, to beat up a mountain with a worm. God is the God of small things, of pebbles, of worms, and boxers flat on their backs looking up. He wants to use you and me to do extraordinary things. **It is His glory to accomplish something big with someone who appears to be insignificant. Our pebble in His slingshot goes a long way and makes a big impact. GOD'S PEBBLE IS STRONGER THAN GOLIATH!**

# PLANS FOR EVANGELISM DURING A PANDEMIC

1. **MANILA IN OUR SIGHTS.** We are presently negotiating for the Mall of Asia Arena, which is a bigger and better hall. The government warns against public meetings but who knows what God is planning?
2. **A CORONAVIRUS PANDEMIC is a PROBABILITY.** The Olympic Games in Japan may be cancelled. Entire cities are on lockdown. But God is not dead.
3. **A COVID-19 pandemic in the USA is probable,** says the Center for Disease Control (CDC) in Atlanta, Georgia.
4. **The Coronavirus death rate is higher than originally estimated.** By comparison the flu annually kills 35,000 people in the USA. But God is still on His throne and we will not fear.
5. **Plagues and pestilences are a sign of the return of Christ.** So the bad news is really the good news.
6. **One needs to be ready to die any hour of any day.** A true believer in Christ has everlasting life, so death holds no fear for the child of God.
7. **Sharing the salvation that Christ gives is the magnum opus for every born-again Christian.** It is our one great work, everything else is *fiddling while Rome burns*.
